

Poway High School Music Boosters

Dear Donor,

I am providing this letter on behalf of the members of the Poway High School Instrumental Music Program. These talented students are seeking the support of the community for their award-winning program. Fund-raising activities for the music students are coordinated and managed by the Poway High School Music Boosters, a non-profit entity (Boosters Tax ID #23-7066352) founded to promote and encourage the instrumental music program at Poway High School.

Every year the School District budget is stretched farther and farther to cover the expense of education. Unfortunately programs such as music, art and athletics are receiving less and less assistance from the District, yet these are the programs that enrich and enhance our students' educational experiences. Keeping our instrumental music program strong and available to all the students who wish to participate requires the commitment of not only the parents of musicians but also the community. Funds will be used for program expenses, including instrument purchase and repair, sheet music purchase, instruction, concert attire and travel to performance events.

We thank you for your assistance and generosity.

Sincerely,

Leon Stone
President, PHSMB
