

CALIFORNIA LEADERSHIP ACADEMY

Starting to select your student leaders for next year? Do they understand what peer leadership is all about? Our CLA has a 30-year record of training effective student leaders for the most successful bands in the state. You can trust Dave Kuhns to point your potential leadership team in the right direction at one of his popular and time-tested **Introduction to Leadership** workshops this spring. Dave recently retired as a full time high school band director (Arizona) and is an inspirational speaker who will effectively “lay it on the line” regarding expectations and qualifications for prospective student leaders.

Here are SEVEN TAKEAWAYS Dave will explore with your students:

1. The difference between leading and controlling.
2. The key to having responsibility without having the authority to force compliance.
3. The importance of relationships over structure.
4. What followers really want from their leaders.
5. How to communicate with adults.
6. The actual value of time in rehearsals.
7. How to become the leader who is actually worth following.
